

Journal information

The Waste forum is a monthly specialized journal dealing with industrial and municipal ecology and providing information on waste management, circular economy, waste water treatment, air pollution treatment, renewable energy, etc. The journal is the communication platform between industrial companies, scientists, government and non-profitable organizations. An integral part of the journal is the legal service which provides information about recent changes in the Czech and European legislation. The journal target audience includes ecological managers and specialists in the field of public administration, university students and researchers.
